4. SCHEDULE FOR THE NEXT FOUR MONTHS

Work covered by the ASOC that is currently planned for May, June, July, and August 2013 includes the following:

- May 2013: EPA to provide determination whether the Final BERA is approvable. EPA will then provide a schedule for the hard copy submittal.
- May 15, 2013: Redline strike-out comments expected from EPA on Section 7 of the Draft Final RI.
- June 3, 2013: Redline strike-out comments expected from EPA on Section 9 of the Draft Final RI.
- June 30, 2013: Target date for EPA to complete tasks one through ten on the Feasibility Study (FS) comment themes and process table.
- July 8, 2013: Redline strike-out comments expected from EPA on Section 6 of the Draft Final RI.

Submittal dates for pending documents currently under preparation by the LWG and scheduled for submittal in upcoming months are listed in Table 1: Status of Active LWG Deliverables—Portland Harbor RI/FS. This table includes pending and recently submitted deliverables for which EPA comments or approvals are required. Table 2: Status of LWG Deliverables—Portland Harbor RI/FS reflects the more complete list of LWG submittals and is equivalent to the former Table 1 provided in previous progress reports.

5. DOCUMENTS AND ISSUES AWAITING EPA RESPONSE

EPA comments or approvals have not been received on a number of documents that have been submitted to EPA as required by the ASOC; these submittals are listed in Tables 1 and 2. The LWG requests that EPA provide document approvals for these submittals to verify that the terms of the ASOC are being met and issues are resolved to maintain progress on the RI/FS. Also, the LWG believes that many of the documents listed as future submittals in Table 2 are no longer needed (see Status/Comments column) and requests that EPA review the list and confirm that these documents are, indeed, not needed.

If you have any questions, please give me a call at (503) 972-5014.

Sincerely,

Jennifer Woronets
LWG Administrative Project Coordinator
